## SAUVIGNON BLANC

GRAPES	93% Sauvignon blanc, 7% Semillon
VINTAGE	2020
PRODUCTION AREA	Constantia, Western Cape
GPS CO-ORDINATES:	S 34 01 43, E 18 24 42
CLIMATE	Mediterranean climate with cool breezes from the Atlantic Ocean, with an average maximum temperature in summer of 26°C, and an average night-time low in winter of 8°C. The long-term average rainfall is 1100mm per year.
SOIL TYPE	The grapes are from vineyards that vary between 100m to 240m above sea level. All the slopes are south to south east facing. Both the Sauvignon blanc and Semillon yields an average of 6 t/ha. The soil types vary from deep red clay soil to red-brown loamy soil, both from granitic origin.
VITICULTURE	Vineyards are trained on vertical shoot position trellis systems. Vineyard actions like pruning, canopy management and harvesting are done by hand. Pest control is done biologically, and soil health and weed control are managed by a selected mix of winter cover crop.
DATE OF HARVEST	Late January till end February
WINEMAKING	Grapes are hand picked early in the morning to retain freshness and fruit flavours. They are crushed and destemmed into the press giving the juice some skin contact before being separated. Only the free run juice is used. The juice is settled and cold fermented (12 – 14°C) in stainless steel tanks to enhance the varietal characters. After fermentation, the wine is left on the lees for six months before being racked, fined and stabilized in preparation for bottling.
PRODUCT DESCRIPTION	The wine shows great complexity on the nose, dominated by ripe fruit like white peach, passion fruit and guava with a distinct grassy, herbal undertone and a hint of lemon. The palate has intensity and length, balanced by fresh natural acidity.
ANALYSIS	Alcohol content: 13.45%; Total acidity: 6.5 g/l; pH: 3.24; Residual sugar: 1.9 g/l; Extract: 19.1 g/l
WINEMAKER	Boela Gerber
ASST. WINEMAKER	Elzanne Bosman
