

Experience The Cradle Of South African Wine

- | | | | |
|--|--|---|--|
| <p>1 WINE & GIFT SHOP
Buy unique work by local South African artists, designers and crafters. Enjoy a wine tasting and purchase wine.</p> <p>The building's roof is a solar plant for renewable energy. To date the plant has offset carbon emissions equivalent to about 3000 trees.</p> | <p>4 MANOR HOUSE
Part Of Iziko Museums Of South Africa</p> <p>From the moment visitors enter the Manor House at the start of their Visitors Route Experience they are connected to the rich heritage of the Cape and to South Africa's wine industry.</p> | <p>7 SIMON'S RESTAURANT
Cuisine and wine experience</p> <p>Reservations:
021 794 1143</p> | <p>10 A THRIVING NATURAL ENVIRONMENT
Groot Constantia has a network of two rivers, natural wetlands, and a dam.</p> <p>Enjoy the indigenous Fynbos garden surrounding the dam, where a healthy aquatic habitat promotes fish breeding.</p> |
| <p>2 CITY SIGHTSEEING OPEN-TOP RED BUS STOP
Enjoy the option to arrive and depart on South Africa's first carbon neutral bus company.</p> | <p>5 CLOETE CELLAR
Part Of Iziko Museums Of South Africa</p> <p>Welcome to the birthplace of the famed sweet wine of Constantia: Grand Constance. "Each bottle is like a liquid time capsule."</p> | <p>8 JONKERSHUIS RESTAURANT
Cuisine and wine experience</p> <p>Reservations:
021 794 6255</p> | <p>11 BIODIVERSITY CONSERVATION
Groot Constantia is a conservation miracle.</p> <p>Here you will find indigenous trees and fynbos, birdlife such as birds of prey, and wildlife, such as caracal, porcupines and Cape dwarf chameleons.</p> |
| <p>3 DOWNLOAD THE FREE VOICEMAP APP
Three self-guided audio walking tours help you to discover the history and production of Groot Constantia wine. Choose from a Museum Audio Guide, Cellar Audio Guide and Vineyard Audio Guide.</p> | <p>6 MODERN-DAY PRODUCTION CELLAR
Enjoy a wine tasting, cellar tour and purchase wine.</p> <p>A planned solar plant on the cellar roof will help avoid an estimated 4 700 tonnes of carbon emissions in its lifetime.</p> | <p>9 INNOVATION IN ACTION
You are standing at the feet of a steep Table Mountain slope.</p> <p>Erosion control is our most important sustainability measure. Look out for the special cover crop in-between the vines and contour "hump" water-breaks.</p> | <p>12 90% BIOLOGICAL FARMING
Natural predators, such as ladybirds, are used for pest control, resulting in a 65% reduction of herbicide use.</p> |
